Training and Assessment

Senior Consultant and Facilitator

Stett has over 20 years of experience delivering successful projects for major national organisations

With a focus on IT and business transformation initiatives, his project and program management experience has served multiple sectors including Telco, financial services and large retail. His project management expertise is grounded in benefit realisation through customer centric design.

Stett's experience in people management and developing high performance teams has given him broad and extensive experience training, coaching and mentoring of individuals and teams to realise business outcomes.

Stett has a passion for not only delivery but for the people side of change, bringing stakeholders together across geographies, areas of interest and influence to drive focussed results. He is known for translating strategy to execution, and ambiguity to clarity of purpose.

Specialising in:

- Project and Program management methodologies
- Training and assessment
- Change Management
- Leadership and Communications
